FOREWORD

THIS TWO VOLUME STUDY on the tombs and mural paintings of Ching-ling, of which this volume contains the plates, is the result of the two expeditions of 1935 and 1939 to the mausoleums of three successive eleventh century emperors of the Liao Dynasty situated at War-in-mangha in the vicinity of Pai-t'a-tzu, Baling, Eastern Mongolia. Volume I which is expected to be published early in 1953 will contain the text.

The expedition of 1935 was undertaken by Dr. Genji Kuroda and Dr. Takuichi Takeshima whose survey concentrated chiefly on the East Mausoleum. Under Mr. Kikutaro Saito's direction Mr. Manshichi Sakamoto and Mr. Asashiro Saegusa were in charge of photography. The tracing of the mural paintings was entrusted to Mr. Takeaki Kobayashi. About half of the original negatives were destroyed by fire as the result of air-raids on Tokyo. Consequently, some of the plates here reproduced are based on printed copies, which entailed on the part of the Zauho Press great difficulties in the preparation of collotype and colour plates.

The second expedition was made in 1939 by the present authors with a view to completing the photography as well as to making an extensive archaeological survey. In this expedition the photography of the sites and mural paintings was carried out by Mr. Kikutaro Saito and Mr. Manshichi Sakamoto, while Mr. Inosuke Takahashi was responsible for the photography of the artifacts.

The English captions were prepared by Prof. Shinobu Iwamura of the Research Institute of Humanistic Sciences, Kyoto University, and revised by Mr. Peter C. Swann of the Museum of Eastern Art, Oxford University, to both of whom the authors take this opportunity of expressing their gratitude. The authors would like to record their appreciation to the Ministry of Education which granted the funds to publish the present volume.
